

Foreword	11
Preface	13

1 INTRODUCTION TO SCREENING AND ASSESSMENT 15

The Practice of Movement Screening and Assessment	17		Body Parts Versus Movement Patterns	18			
The Movement Versus Motion Paradox	19		Movement is Our Business	21		Systems Versus Programs	22
Movement Screening Models	23		Function Versus Anatomy	25		Dysfunction, Pain and Rehabilitation	26
The FMS History	28		Recognizing Patterns	30		The Five Basic Principles	31
Overview of the Functional Movement System Goals	32						

2 ANATOMICAL SCIENCE VERSUS FUNCTIONAL SCIENCE 35

Training Stabilizers Versus Training Movers	37		Muscle Function—Movement and Sensation	38						
Joints and Ligaments	38		The Fascial Matrix	39		The Breath	40		The Neuromuscular Network	41
Authentic Movement	43		The Movement Matrix	44		Dissection and Reconstruction	45			
Movement Deficiency and Dysfunction	47		Developmental Movement Dysfunction	47						
Traumatic Movement Dysfunction	47		Acquired Movement Dysfunction	48		Pain Changes Everything	50			

3 UNDERSTANDING MOVEMENT 51

Movement Knowledge Versus Exercise Knowledge	52		The Two Functional Movement Systems	52			
Basic Movement Before Specific	55		Understanding Perspectives Activities, Exercises and Athletics	56			
Difficulty Versus Challenge	57		A Professional Crossroads	57		Diseases, Injuries and Ailments	58
Thin-Slicing	59		A Glance at Screening, Testing and Assessment	59		Overview of the Systems	61
Movement Assessment	61		Outline of the Functional Movement System	61		Functional Movement Screen: FMS	61
The Clinical System—Selective Functional Movement Assessment: SFMA	62		Creating Functional Movement Standards	63			

4 MOVEMENT SCREENING 65

The Effect of Injury on Movement	68		Where Does a Movement Screen Belong?	69
Movement Screen Outcomes	70		Pre-Participation and Performance Reviews	71

5 FUNCTIONAL MOVEMENT SYSTEMS AND MOVEMENT PATTERNS 73

FMS Overview	74		SFMA Top-Tier Assessments	75		SFMA Breakouts	76
The Concept of Screening	79		Functional Movement Screen Criteria	80		The FMS Design	80
The Four Basic Filters	81		Pain Versus Discomfort during Screening	84		Scoring the FMS—Results Hierarchy	85

6 FUNCTIONAL MOVEMENT SCREEN DESCRIPTIONS 87

The FMS Test List	88		The FMS Scoring Sheet	89		Deep Squat Movement Pattern	90
Hurdle Step Movement Pattern	92		Inline Lunge Movement Pattern	94			
Shoulder Mobility Reaching Movement Pattern	96		Clearing Exam	96			
Active Straight-Leg Raise Movement Pattern	98		Trunk Stability Pushup Movement Pattern	100			
Clearing Exam	100		Rotary Stability Movement Pattern	102		Clearing Exam	102
Functional Movement Screen Conclusion	104		Increased Activity Risk	104			
Movement Screen Modifications	105		Modification Hierarchy	106			

7 SFMA INTRODUCTION AND TOP-TIER TESTS 107

Considering Patterns of Movement Clinically	107		The SFMA Characteristics	110			
Mapping Movement Patterns	110		SFMA Criteria	111		Functional and Non-Painful (FN)	111
Functional and Painful (FP)	112		Dysfunctional and Painful (DP)	112		Dysfunctional and Non-Painful (DN)	113
The SFMA Top-Tier Tests	114		Assessment Results Hierarchy	114		The SFMA Versus the FMS	116
Pain and Motor Control	117		Clinical Musculoskeletal Evaluation	118		Levels of Information	118
Evaluation Hierarchy	119		Functional Patterns and Postures	120		Provocation of Symptoms	122
The SFMA Top-Tier Assessments	123		Cervical Spine Assessment	123		Upper Extremity Movement Pattern Assessments	124
Multi-Segmental Flexion Assessment	126		Multi-Segmental Extension Assessment	126		Multi-Segmental Rotation Assessment	127
Single-Leg Stance Assessment	127		Overhead Deep Squat Assessment	128		Balancing Movement and Pain Information	129

8 SFMA ASSESSMENT BREAKOUT DESCRIPTIONS AND FLOWCHARTS 133

Mobility Problems 134 | Stability Problems 134 | Flowcharts 135 | The SFMA Breakouts 135
Cervical Spine Movement Pattern Breakouts 138 | Upper Extremity Pattern Breakouts 142
Multi-Segmental Flexion Breakouts 145 | Multi-Segmental Extension Breakouts 152
Lower Body Extension Breakouts 156 | Upper Body Extension Breakouts 160
Multi-Segmental Rotation Breakouts 166 | Hip Rotation Breakouts 168 | Tibial Rotation Breakouts 173
Single-Leg Stance Breakouts 176 | Vestibular and Core Breakouts 176 | Ankle Breakouts 179
Overhead Deep Squat Breakouts 183 | Rolling Breakouts 187

9 ANALYZING THE MOVEMENTS IN SCREENS AND ASSESSMENTS 191

The Deep Squat 191 | Mistakes on Screening the Squat 193 | Symmetry Versus Asymmetry 194
Stick to the Screen 194 | Stability and Mobility in the Deep Squat 196 | Squatting: The Pattern and the Exercise 197
Whole Pattern Training 198 | Reverse Patterning the Deep Squat 199 | Reactive Neuromuscular Training for the Deep Squat 200
The Deep Squat Shadow 201 | The Hurdle Step and Single-Leg Stance 201 | Exercising the Patterns 203
Compensations in the Hurdle Step and Single-Leg Stance 204 | Runners and the Single-Leg Stance 205
The Inline Lunge 206 | Pattern-Specific Core Stability 206 | The Lunge as a Movement Pattern 207
Core Stabilization in the Lunge 208 | Shoulder Mobility Reaching Test 209 | Complementary Movements in Shoulder Mobility 209
Coaching or Retraining the Natural Pattern 210 | The Active Straight-Leg Raise 211 | The Hips and the Active Leg Raise 211
Corrective Progress 212 | Mobility before Stability 212 | The Pushup 213 | Mastering Pushing Symmetry 214
Rotary Stability 214 | Rolling Patterns 215

10 UNDERSTANDING CORRECTIVE STRATEGIES 217

Common Corrective Exercise Mistakes 217 | Movement Alchemy 218 | Screen and Assessment Correctness 218
Beginning with Exercise Basics 219 | The Performance Pyramid 220 | Over-Powered Performance Pyramid 222
Under-Powered Performance Pyramid 222 | Under-Skilled Performance Pyramid 222 | Optimum Performance Pyramid 222
Using the Performance Pyramids 225 | Short-Term Response Versus Long-Term Adaptation 225
Corrective Exercise Progressions 226 | Increasing Difficulty 226 | Asking the Right Questions 227
What Exercises to Remove from the Program 228 | Corrective Exercise is Supplemental 229
Exercises: Correct Versus Corrective 229 | Correct Exercise 230 | Self-Limiting Exercise 231
Self-Limiting Activities 233 | Challenging Versus Difficult 234 | The Goals of Corrective Exercise 234

11 DEVELOPING CORRECTIVE STRATEGIES 237

Tension and Tone 237 | Dysfunctional Patterns 238 | The FMS and Corrective Exercise 239
The SFMA and Corrective Exercise 241 | Corrective Exercise and Functional Exercise 242
Putting the Function in Functional Exercise 243 | Conditioning Exercise, Corrective Exercise and Movement Prep 244
Conditioning Exercise 244 | Corrective Exercise 245 | Movement Preparation 245
Skill Training, Conditioning and Corrective Exercise 245 | Movement Preparation Versus Movement Correction 247
FMS Corrective Prioritization 248 | SFMA Corrective Prioritization 248 | Developing a Corrective Toolbox 249

12 BUILDING THE CORRECTIVE FRAMEWORK 251

The Six Ps of Corrective Exercise 251 | Pain 251 | Purpose 252 | Posture 252 | Position 253 | Pattern 254
Plan 254 | Learning Movement or Doing Movement 256 | Special Considerations and Populations 257
Just Do It 258 | Movement Psychology Theory 259 | Screening the Breath 260

13 MOVEMENT PATTERN CORRECTIONS 263

Basic Mobility Corrections 263 | Passive & Mobility Corrections 265 | Assistive Mobility Corrections 266
Basic Stability, Motor Control Corrections 267 | Postures for Stability Corrective Exercise 270
Rolling 270 | FMS Rolling 271 | SFMA Rolling 272 | Static and Dynamic Stabilization Corrections 273
Transitional Posture—Static Stability 274 | Dynamic Stability Corrections 276 | Summary of Stability Corrections 278

14 ADVANCED CORRECTIVE STRATEGIES 281

Movement Learning Considerations 281 | The Manageable Mistake Zone 282 | A Corrective Experience Case Study 283
The Paranoid System and the Clueless System 286 | Corrective System Overview 288 | Mobility Framework 288
Stability Framework 289 | The Deadlifting Experience 290 | Training Wheels 291 | Advanced Corrective Strategies 292
Movement Pattern Retraining 292 | Reverse Patterning (RP) 292 | Reactive Neuromuscular Training (RNT) 294
Conscious Loading (CL) 296 | Resisted Exercise (RE) 301 | Movement Learning 302

15 IN CONCLUSION 305

A Chance at Authentic Movement 305 | The Business of Exercise and Rehabilitation 307
Principles Versus Methods 308 | If We Build It, They Will Come 309 | Functional Movement System Principles 310
Technical Confidence Versus Systematic Authority 313 | The Amazing Movement-Learning Brain 314
The Dysfunctional Movement-Learning Brain 315 | The Wisdom of Our Ancestors 316

1 THE JOINT-BY-JOINT CONCEPT | 319

2 EXPANDING ON THE JOINT-BY-JOINT APPROACH | 323

3 SFMA SCORE SHEETS AND FLOWCHARTS | 330

4 BREATHING | 353

5 HEART RATE VARIABILITY | 355

6 THE FUNCTIONAL MOVEMENT SYSTEMS TEAM, A HANDFUL OF LEADERS | 357

7 EARLY PERSPECTIVES AND THE JUMP STUDY | 359

8 CORE TESTING AND FUNCTIONAL GONIOMETRY | 367

9 FMS SCORING CRITERIA | 373

10 VERBAL INSTRUCTIONS FOR THE FUNCTIONAL MOVEMENT SCREEN | 381

11 EXAMPLE OF A CONVENTIONAL DEEP SQUAT EVALUATION PROCESS | 387

12 PATIENT SELF-EVALUATION FORMS | 391

LIST OF ILLUSTRATIONS | 395

REFERENCES | 396

INDEX | 399
